

WAVE Award

Makikihi School Māori Health 2015

In 2015 Makikihi School achieved their WAVE Award for Māori Health.

This was a result of a year's hard work and an ongoing commitment by the students and staff which included all students researching information and being able to recite their Mihi, gain a general understanding of Māori tikanga, and undertaking a visit to Waihao Marae where Mr Palmer (Principal) took the male lead for the school in Te Reo. It is now part of the school's practice to open and close assemblies and other school events with karakia and waiata, and the school is developing permanent signage in Te Reo.
